THARCOOL is a water tank brand designed specifically for the extreme climate of Rajasthan and other hot regions of India. Unlike conventional water tanks, THARCOOL focuses on helping keep stored water cooler during scorching summers while maintaining reliable protection throughout the year. Our tanks use UV-resistant, multi-layer opaque construction, a food-grade virgin plastic inner layer, and anti-microbial protection to provide a safer and more hygienic water-storage solution. THARCOOL combines climate-focused design, durability, hygiene, and modern technology to deliver dependable water storage for Indian homes and families. Our vision is simple: "Cool in Summer, Protected in Winter."
